Mission We dedicated to growth and achieve our vision by providing excellent Constructions services to our clients consistently, delivering quality, safety and reliability in meeting our clients 'needs' at a very competitive price without compromising on quality.

Objective To become the leading Contracting firm, while delivering projects that consistently exceed international standards and provide exceptional customer satisfaction.

Goal **DAAIM AL TURQ** goal is to build brand recognition.

Message From CEO

SARRAN ASKAR MUHMMAD Chairman Of Board

Thank you for taking the opportunity to learn about Daa'im Al Turq Contracting Co. We hope that your review of our company profile will provide a deeper understanding of our experience, organizational philosophy as a team of builders, and our history as one of the region's dependable contracting and equipment rental service providers.

Our success is rooted in the belief that we are part of a broader team effort—where outcomes are a direct result of how well our expectations align with those of our clients.

At Daa'im Al Turq Contracting **Company**, we place significant emphasis on maintaining strong team alignment on every project we plan and execute. As the construction industry continues to evolve in the 21st century, we recognize the increasing pace of change—from how information is managed and shared, to innovative methods of project delivery, equipment deployment, and resource planning. These shifts will continue to influence business opportunities and competitive pressures across the industry.

Looking ahead, success in the contracting and equipment rental sector will increasingly rely on greater operational flexibility, stronger organizational culture, workforce diversity, and excellence in sustainability and safety. Continuous training, improved efficiency, and advanced machinery utilization will play a crucial role in shaping the future of our services.

We remain optimistic about the opportunities ahead and confident in the strength of our team. Daa'im Al Turq Contracting **Company** is positioned to deliver long-term value through reliable project execution, trusted partnerships, and high-quality equipment rental solutions. Our goal is to serve clients in a manner where owners and partners receive the best return on their investment, and where **Daa'im Al Turq Contracting Co** is viewed as a long-term partner within the construction community.

SUPERVISION:

In order to realize proper execution of any specific activity that is carried and smoothly parallel to given timetable. Supervisors are assigned to each and every job that has been awarded to **Daaim CO** The company considers proper supervision to be important and invaluable in the performance a particular job with the scientific and technical perfection.

THE DUTIES OF OUR WELL EXPERIENCE SUPERVISORS ARE:

To supervise the working staff, checking daily on the quality of the task completed, giving necessary instruction and guidance.

To ensure that the task are carried out in accordance with the specified schedule.

To keep the management constantly informed of worker's quality and performance, in order to take corrective measure well in time.

To take charge of the supplies and ensure proper distribution is done.

To look after the requirements of the workers, which will aid the quality of the worked, performed.

Pre-fabricated Warehouse

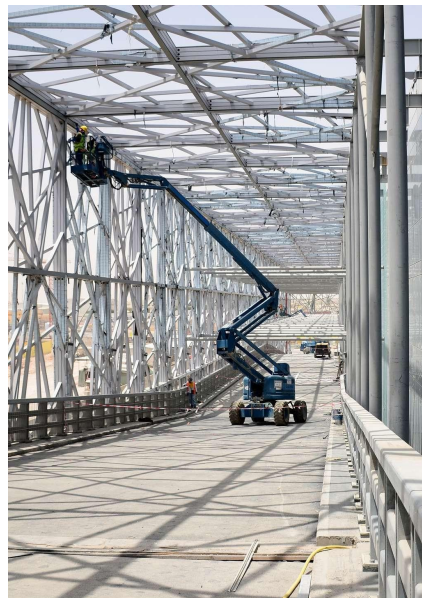

A prefabricated warehouse is a type of industrial building that is constructed using prefabricated components. These components are manufactured off-site in a factory or fabricated on the site and then shipped to the site where they will be assembled. This type of construction is becoming increasingly popular due to its many advantages over traditional construction methods.

Prefabricated warehouses have a number of advantages over traditional warehouses. They are much faster to construct, and can be built in a fraction of the time it would take to build a traditional warehouse. This is because all of the components are manufactured in a factory, and then shipped to the site where they are assembled

Steel Frameworks

It highlights the company's expertise in erecting complex steel frameworks, using advanced machinery and skilled labor to ensure precision and quality in large-scale projects.
